DEATH OF MRS. W. LORD

The sudden death of Mrs. Walter Lord, which occurred at Holy Cross hospital, Calgary, on Thursday last, removed from the Pass one of its best known and popular citizens.

Mrs. Lord was in her forty-seventh year and was in enjoyment of good health till but a short time ago, when an internal trouble developed, making an operation necessary. That operation was performed the day prior to her death.

She was born at Barrow-in-Furness, England, and came to Calgary eighteen years ago with her husband. The family moved to Blairmore in the year 1918. She was well known in social and society circles, being a charter member of the local Eastern Star lodge and the Pythian Sisters, holding office in the former ever since its inception and at the time of her death was conductress, as well as a past chief of Greenhill Temple, Pythian Sisters. She had also held office in the Alberta Grand Temple.

The survivors are: her husband, five sons — Walter, Louis, George, Harry and Douglas; two daughters — Mrs. T. Gale and Vera; mother and three brothers and two sisters in England.

The remains were brought to Blairmore by Saturday morning's train and the funeral took place on Sunday afternoon, and was largely attended. Members of the Masonic and Pythian lodges, together with members of the Eastern Star and Pythian Sisters lodges, attended in a body. Services were held at the United church, conducted by the pastor, Rev. J. W. Smith, B.D.

The pallbearers were Messrs. E. A. Harper, G. Sangster, G. Meffan, B. Sensler, J. Wolstenholme and H. Sommers.

Floral tributes were many and beautiful, representing expressions of sympathy and respect from the following: The Family, Mr. and Mrs. Ernest Gale and Mr. and Mrs. Albert Gale and Mabel; Grand Temple of Alberta, Pythian Sisters; Officers and Members of Greenhill Temple No. 10, Pythian Sisters; Progressive Temple No. 3, Pythian Sisters (Coleman); Mczaph Temple No. 7, Pythian Sisters (Hillcrest); Livingstone Lodge No. 22, Knights of Pythias; Officers and Members of Viny Chapter No. 52, Order of Eastern Star; Minerva Chapter No. 41; Order of Eastern Star (Coleman); Bellecrest Chapter No. 74, Order of Eastern Star (Hillcrest); Hillvue Chapter No. 15, R.A.M. (Hillcrest); Officers and Members of Rocky Mountain Lodge No. 56, A.F. & A.M.; Ladies' Aid of Blairmore United Church; Employees of Blairmore Iron Works; General Manager and Staff of West Canadian Collieries Limited; Mr. and Mrs. J. Atherton (Calgary); Mrs. Rees (Calgary); Mrs. W. Hutchison (Hillcrest) and Mrs. C. Glendenning (Coleman); Mr. and Mrs. J. McDougall, Mr. and Mrs. Gordon Steeves, Mr. and Mrs. J. McPail and family, Mr. and Mrs. W. Howe, Mr. and Mrs. E. A. Harper, Mr. Wilfred Goddard, Mr. and Mrs. Harold Pinkney and Thelma, Mr. and Mrs. D. Oliver, Mr. and Mrs. R. Rinaldi, Mr. and Mrs. Raoul Green, Mr. and Mrs. H. A. Moore and Miss Emma Kidd, Mr. and Mrs. George Brown and family; Mrs. Archer, Jean and Bill; Mr. and Mrs. F. M. Thompson and family, Mr. and Mrs. W. H. Chappell and family, Mr. and Mrs. S. G. Bannan and family, Mr. and Mrs. D. Kemp and family, Mr. and Mrs. R. Gray and family, Mrs. F. M. Pinkney and Roland, Mr. and Mrs. J. A. Kerr and family, Mr. and Mrs. Dave Emery, Mr. and Mrs. F. S. Knappman and family, Mr. and Mrs. W. Gresham, Mr. and Mrs. George Meffan and Isobel, Mr. and Mrs. J. A. Packard, Mr. and Mrs. A. Greig and family, Mr. and Mrs. W. Turner, Mr. and Mrs. Joseph Wolstenholme and Mrs. D. Fraser, Mr. and Mrs. Arthur J. Kelly, Mr. and Mrs. W. L. Evans,

CLEANING OUT OF RESERVOIR COMPLETED

Water was again shut off all day on Monday to give the waterworks department an opportunity of completing the work of cleaning out the reservoir.

The task has been a big one, but the results have been most satisfactory. During the past twelve or thirteen years, spring freshets have caused an accumulation of soil to a depth of from one to eight feet in the reservoir, reducing the capacity some twenty-five per cent. In two days, practically all this has been removed and with a good flow of water from the stream has been dumped in and has been carried out, leaving a beautiful clear gravel bottom to the reservoir. Repairs have also been effected to the intake, as well as various gate valves, and now Blairmore is assured of ample supply of as good water as is obtained anywhere in the province. To do the work, it was necessary to employ upwards of forty men.

Some splendid photographic snaps of the work and the finished job were obtained. Some of these may be seen by any ratepayer calling upon Capt. W. A. Beebe, chairman of the works committee.

COUNCIL DECIDES TO ENLARGE RESERVOIR

At the regular meeting of the Town Council, held last night, it was decided to increase the size of the dam by raising the retaining wall about four feet.

Several street crossing will also be improved, similar to that at Sixth Avenue and Victoria Street.

Council were unanimous in supporting the Wainwright relief fund to the extent of \$25.00.

A sum of money was also granted for the purpose of cleaning up the cemetery.

MUSIC MEDALISTS ANNOUNCED

In a letter received by Mr. and Mrs. Stirling Marshall, Hillcrest, from Dr. E. MacMillan, head of the Toronto Conservatory of Music, they were advised that their son James had been successful in the recent examinations for primary grade and had been awarded special recognition in the Dominion medal, attaining 85 marks.

Laura Freebairn, of Pincher Creek, also received a medal in the junior grade examinations, as well as a letter of commendation.

Both the above are violin pupils of Mr. W. H. Moser, who together with his pupils must be congratulated.

ALLAN PRIGGE DROWNED IN CASTLE RIVER

A drowning fatality occurred just below the falls on Castle River on Saturday afternoon last, the victim being Allan J. Prigge, fifteen-year-old son of E. J. Prigge, forest ranger at Kelly's.

The lad was fishing and is believed to have fallen off a ledge into deep water. The body was taken from a depth of about eight feet of water, his rod and haversack, containing some fish he had caught, giving evidence of the tragedy.

The remains were laid to rest at Pincher Creek on Monday.

Chinook Lodge, of the A. F. & A. M., have decided to rebuild their hall at Cowley.

Mr. and Mrs. E. McDonald, Mr. and Mrs. P. Chardon, Mr. and Mrs. W. L. Warke, Mr. and Mrs. J. R. Gresham, The most beautiful among the flowers were those displaying in colors the emblems of the various orders.

With the bereaved we join in sympathy.

WORLD HAPPENINGS
BRIEFLY TOLD

Lady Jane Moreton, mother of Lady Byng, died at Brighton, England, very suddenly at the age of 83 years. She was the widow of Sir Richard Moreton, son of the Earl of Ducie, who died in March, 1927.

William Johnson, a powder monkey when the last shots were fired in the Chinese War, and the witness of the last hanging for naval insubordination, died recently at Weymouth, England, aged 83.

The British Admiralty has announced promotion of Admiral Sir Osmond Brock to be Admiral of the Fleet, to fill the vacancy caused by transfer of Admiral Sir Charles Madden to the supplementary list.

Concealed among the ship's paint supplies, which are stored in the forepeak, 108 tons of opium valued at \$10,800 were seized by customs examiners on board the "Empress of Asia," of the Vancouver Orient service. No arrests were made.

A sale of 62 imported cattle by B. H. Bull and Son, at their farm near Brampton, Ont., brought total receipts of \$80,224. It is said the sale was the largest of average cattle ever held in Canada and the Jersey price of \$1,295 has never been equalled on the continent since 1920.

Official circles have intimated that the government was considering the possibility of voluntary curtailment of naval building as a gesture supporting building in Canada. This, it is announced by Premier Ramsay MacDonald, of Great Britain, and President Hoover of the United States.

South B. Nicholson, observer at the Mount Wilson observatory, said a gigantic spot has been discovered near the equator of the sun. This spot, described as having eighty times the magnetic intensity of ordinary sun spots. Dr. Nicholson said, was powerful enough to cause serious magnetic storms on the earth.

A Master Scientist

Dean Boyle, of Alberta University, Accepts Post On Research Council

It may be assumed that when the National Research Council of Canada is able to attract to its staff scientists of the calibre of Dr. R. W. Boyle, M.A., Ph.D., dean of the faculties of physics and applied science at the University of Alberta, who has accepted the post of director of the physics and engineering division of the Council, it will, before long, be able to give a very good account of itself.

Dean Boyle, although only some 45 years of age, is already one of Canada's foremost scientists, ranking not far behind Professor J. C. McLennan, of the University of Toronto. During the war he showed that he was no mere theorist in his chosen work, for he rendered important service to the British Admiralty in perfecting a device for the detection of submarines. His scientific and creative mind has also been responsible for devices for the detection of icebergs. He appears one of Canada's master scientists, and it is fortunate that his services are now to be made available for Canada as a whole. The University of Alberta has now given two of its staff to the National Research Council. Dr. H. M. Tory, chairman of the council, is a former president of that institution.

Honey Extraction Plans

The latest machinery is being installed in the new extension to the plant of the Hinde Honey Company, at Taber, Alberta, and prospects appear to be first class. The new addition will be for honey extraction and a daily output of about 9,000 pounds is expected during the active season.

Sheep Shearing in Alberta

Sheep shearing in the Picture Butte District, Alberta, is now about finished. Last year there were only five flocks in the district; this year there are 23, mostly ranging in size from 35 to 150 ewes.

She: "I read those verses you sent me to dad."

He: "What did he say?"

She: "That he was glad I was not going to marry a poet." — Russ Hunter, Madras.

W. N. O. 1797

Want Night Air Service

Demand From Hamburg, Germany, To Be Included in Present Plans

Hamburg, Germany, is demanding that it be included in the present plans for night flying services that are to cover all Europe. The promoters of the service say that the favorable position of the city with its day services does not necessitate its having a place in nocturnal flights. While Hamburg authorities admit this they contend that the great importance of their city as a commercial center demands that it should be included. They point out that Hamburg is the junction for air service from Scandinavia countries and it should at least have night-service connection with Berlin and Rhine via Bremen to enable passengers arriving late in the day to continue their journey.

Church Collections Suffer

Using Big Nickels Instead Of Quarters in Offerings at Ottawa

Governments have been blamed for troubles a plenty, but Canada's law-makers are cited as the cause of a new ill. Decrease in church collections is the latest trouble laid at the door of the Dominion Government, and an Ottawa churchman has made the charge.

With the advent of the "big nickel," church collections have fallen off, a preacher stated today at a regular Sunday service. "The large five-cent piece," he said, "are dropped into the collection plate with a flourish that belongs to nothing less than a quarter. I don't blame the smaller collections on the people, I blame the Government."

Winnipeg Newspaper Union

DRAPE FLARE

A new silhouette for the youthful smart woman. It shows the raised waistline, a chic detail in all Paris frocks. The circular skirt in diagonal movement is draped at left side which is suggestive of wrapped treatment. Style No. 566 combines printed and plain cotton voile, the popular summer fabric. It comes in sizes 16, 18, 20, 22, 24, 26, 28, 30, 32, 34, 36, 38, 40 and 42 inches bust. The deep slender silhouette, makes it suitable for the larger woman by placing the circularness low. Chatterbox green chiffon, tomato red crepe de chine, yellow handkerchief linen, orchid and white printed lawn, purple aster georgette crepe, printed rayon, blue capesine linen, and sky-blue sheer lace are distinctly smart combinations for this charming afternoons model. Pattern price 25 cents in stamps or coin (coin is preferred). Wrap coils carefully.

HIGHLY PRIZED TROPHY

Move Being Made By City Council Of Stratford, Ontario

In reply to a resolution from the city council of Stratford, Ont., in which the local council was requested to petition the Dominion Government to pass legislation by which summer time will be made effective throughout Canada, special council instructed the city clerk, George Beach, to obtain information as to whether Stratford council is asking for daylight saving time for the summer months only or all the year round.

In the communication received, it was pointed out by the Stratford council that the Dominion Government had already been approached and petitioned by the former body. The Regina aldermen are in favor of Dominion-wide daylight saving time, but are opposed to it being effective all the year round.

This is the Beatty Trophy, presented by the chairman and president of the Canadian Pacific Railway, for inter-regional competition among pipers of Canadian Highland regiments, to be played for at the Highland Gathering and Scottish Music Festival scheduled to be held at Banff August 30 to September 2. The gathering brings together pipers from one end of Canada to the other, from Nova Scotia to British Columbia, and is the great event of the year in Scottish-Canadian circles.

Riches Of Northland

Vast Treasure House Of Precious Minerals In Northern Canada

Last week Mr. W. C. Cain, Deputy Minister of Lands and Forests of Ontario, who has been studying northern Ontario all his life and is an enthusiast for that country, stated that in his recent trip to the far north he was given a picture of northern possibilities that was beyond his previous ideas on the subject. Some time ago "The Financial Post" told of the existence of a vast bed of amber underneath a lake in Northern Manitoba. Already as a result of the publication of this article, which accidentally drew comments in British and American as well as Canadian papers, private parties have set on foot plans for the complete exploration of this deposit. Last week another article in this paper told of various indications of precious stones in the north and even suggested the possibility of diamonds being found.

Gold and silver are now commonplace in our northern picture and platinum is becoming almost familiar to our mining men. In the vast quantities exists in Ungava and on the islands of Hudson Bay and aluminum can be extracted from northern clays. Copper deposits are known to exist in Northern Saskatchewan and run into the Arctic Circle and air voyagers have skimmed down upon the surface of lakes in the far north to find nickel and other base metals.

The north is an amazing country in future wealth. Canada can no longer be regarded as a narrow belt 3,600 miles long. It is a vast country approximately 3,000 miles square, with as much promise in the far north as in the east and the west—Moose Jaw Times.

A New Safety Device

Polish Filters Make Test Of Life-Saving Overall

"Life-saving overall," designed for trans-Atlantic liners, were given successful tests in Lake Maggiore, Italy, by two Polish filters who hope to fly from Milan to Chicago in mid-August.

The overalls are of an especially heavy rubberized fabric, equipped with valves by which they may be inflated. They will keep their wearers afloat for many days, their inventor asserts.

An added novel feature of the rafts is the equipment of electric batteries and light bulbs which will remain illuminated at least 60 hours. De Favori says.

Tinted Glass Aids Plants

Seeds grow better under greenish-yellow glass than when under plain panes. So declare workers in a greenhouse in Germany that have been experimenting with the tinted glass. Seeds planted under the colored panes were five times as productive as those under the plain glass, and also remained green longer.

In Mammoth Cave, Kentucky, there are fish and crayfish that have no eyes.

The cow is worshipped as a sacred animal in India.

Ask Daylight Saving

Act For Dominion

Move Being Made By City Council Of Stratford, Ontario

In reply to a resolution from the city council of Stratford, Ont., in which the local council was requested to petition the Dominion Government to pass legislation by which summer time will be made effective throughout Canada, special council instructed the city clerk, George Beach, to obtain information as to whether Stratford council is asking for daylight saving time for the summer months only or all the year round.

In the communication received, it was pointed out by the Stratford council that the Dominion Government had already been approached and petitioned by the former body. The Regina aldermen are in favor of Dominion-wide daylight saving time, but are opposed to it being effective all the year round.

Recipes For This Week

(By Betty Barclay)

PARSNIP SOUFFLE

Cook four medium-size parsnips in boiling water. When tender, remove the skins and rub through a colander. Mix together one teaspoon salt, one-eighth teaspoon pepper, one teaspoon sugar. Add the parsnips and one tablespoon of butter to the parsnips. Melt two tablespoons of butter in a saucepan, stirring in two tablespoons of flour and one cup of milk. Be sure the mixture is thick and smooth. Add to the parsnips, together with the yolks of two well-beaten eggs. Beat the whites of the eggs until stiff and fold into the mixture. Put in a buttered baking dish and bake for 25 minutes in a moderate oven. Serve immediately, or the souffle will fall.

PINEAPPLE PUNCH

1 quart water.
2 cups sugar.
2 cups chopped pineapple.
1 cup orange juice.
1 cup lemon juice.
Boil water, sugar and pineapple 20 minutes. Add fruit juices, cold, strain and dilute with ice water if necessary. Either fresh or canned pineapple may be used.

Saskatchewan Farm Loans

Since the Farm Loans board was inaugurated in 1917, more than 4,500 farmers throughout the province of Saskatchewan had received assistance by way of loans from the board to December 31, 1928, according to the department of the treasury of that province. From the inception of the scheme to that date a total of \$13,000,000 had been loaned to farmers.

Since 1918, 1,250,000 houses have been built in England, providing homes for five or six million people.

SUNDAY SCHOOL LESSON

August 11

DANIEL AMONG THE LIONS

Golden Text: "The angel of Jehovah encircled him about with his wings, and delivered him."—Psalm 34:7.

Lesson: Daniel 4:1-35.

Devotional Reading: Psalm 91:9-16.

Explanations and Comments

Daniel's Promotion, verses 1-3.—It pleased Darius to make Daniel one of the three presidents over his satraps, and because "an excellent spirit was in Daniel," the king thought to set him over the whole realm.

The Ingenious Plot Of Daniel's Enemies, verses 4-15.—The jealousy of the other two presidents and of all the satraps led them to try to compass Daniel's death. His record was unassailable; they saw that only on the ground of his religion could he be attacked. They then concocted a scheme so to play upon the king's vanity as to induce him to pass a law for which no one should ask petition of any god or man save the king only—as though he were a god to whom the whole realm must pay divine honors. Whoever should violate this decree should be cast to the lions. There was no allusion to Daniel; the king was immensely flattered and, all unsuspecting of the purpose behind the request, fell into their trap. Evidently he took no time for reflection, but immediately signed the law, and the law of the Medes and Persians altereth not. The unalterableness of a decree of a Persian king is frequently referred to in the book of Esther.

Darius illustrates the danger of adopting suggestions without considering their consequences. The probable consequences of acts which we consider should always be carefully considered, especially in their bearings upon others.—J. E. McFadyen.

Daniel continued his habit of prayer just as he did before the decree was made; and not only did he pray but he gave thanks in the face of the fate he knew was approaching.

Early in the morning, before you come down into the streets of Babylon, to hear its talk and breathe its impure atmosphere, open your windows. Look out upon the sources of strength. Walk upon it until your soul mounts up with wings like an eagle. Walk upon it until your moral nature can run upon errands of usefulness and not grow weary. Your heart gain a fresh sense of the moral interest in cherishes toward you and you will not be afraid of Babylon and all its lions.—Charles R. Brown.

As Daniel was consigned to the den of lions, the king said to him, "Thy God whom thou servest, He will deliver thee." After sealing the mouth of the den with his seal, the king passed the night sleepless and fasting, and in the morning hastened to the den. With "lamentable voice," a voice quivering with grief, he cried to Daniel, "My God hath sent his angel, and hath shut the lions' mouths," answered Daniel, who was there unharmed.

Prince Is Expert Typist

The Prince of Wales has been revealed as an expert typist. On a recent trip to the north of England, he carried a typewriter with him, balancing it on his knees in the train and setting down his impressions of the journey.

Canada And The
British Market

Quantity Shipments of Farm Products Just as Necessary as Quality Standard in Order to Hold Trade

In a very instructive article that has been written for the Country Guide of Winnipeg, W. A. Wilson, Canadian Agricultural Products representative on the Empire Marketing Board, brings out some of the reasons why Canada is not getting a larger share of the British foodstuffs market. One point that he brings out is of very great interest; it is that quality itself is not sufficient to win the British market; there must be quantity as well.

What Mr. Wilson means is that sales contacts cannot be established and maintained in Great Britain unless there is assurance of an adequate and steady supply of the commodity sold, be it bacon, eggs, meat, salmon, or other foods. This is the lesson that Canada has not learned, Mr. Wilson indicates. We have so raised the quality of our food products that they are thoroughly satisfactory to the British consumer, but we do not provide for Britain a steady supply of our goods. British buyers are very chary of shifting their sources of supply unless they are given every assurance that they can always get what they want when they want it.

Mr. Wilson believes that Canada, in improving the quality of some food products, has shown ability in both leadership and workers. He considers it quite reasonable to expect that Canada can work out the problems of quantity production that is necessary to hold the British market.

To judge from the article one would assume that all that is necessary to overcome Canada's handicap is to lessen the inertia of the Canadian farmer and farm organizations. If the problem does not go deeper than that, it will be no difficult to solve. The Department of Agriculture at Ottawa and in each of the provinces and the various farm organizations have a tremendous opportunity to aid in expanding Canada's export trade.

Made-In-Canada Exhibition

Will Show Public Quality Of Goods Produced In Dominion

Co-operation of various bodies with the National Produced-in-Canada Exhibition, which will be held in Montreal from November 4 to 9, already seems assured, according to reports received by the Canadian Manufacturers' Association, Quebec division, Montreal branch. "These reports," says the Gazette, "show the consensus of opinion strongly supporting the scheme to illustrate to the public, through the medium of the exhibition, the quality and diversity of goods which are produced in Canada by Canadian manufacturers for Canadians."

WINDOLITE The Improved
Glass Substitute

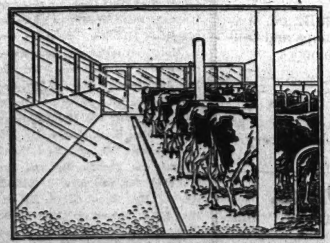

COMES WITH A MESSAGE OF HEALTH

THE sun is the all-powerful life producer. Nature's universal disinfectant and germ destroyer, as well as stimulant and tonic. WINDOLITE is the sun's most important ally.

Medical research has definitely proved that from the point of view of Health and Hygiene, the most effective among the sun's rays, are the Ultra-Violet rays, which possess the greatest power for the prevention and cure of disease and debility.

Science has further established that ordinary window glass does not allow the passage of Ultra-Violet rays, so that by using glass we are artificially excluding these vital health-giving rays. Therefore, the invention of WINDOLITE has completely satisfied the long-felt want. Exhaustive experiments have conclusively proved that it is a most effective substitute for glass, that it freely admits the Ultra-Violet rays, and that its use has a most beneficial effect on the growth and breeding, increasing the egg-laying capacity and fertility of chickens, has greatly improved the health of cattle and is now being used in domestic and household requirements.

Indeed, the discovery of WINDOLITE has during the last six years completely revolutionized gardening, given a new stimulus to poultry breeding, increasing the egg-laying capacity and fertility of chickens, has greatly improved the health of cattle and is now being used in domestic and household requirements.

WINDOLITE stands for 100 per cent. sunlight. It makes light let strong windows for cattle sheds, dairy stables, poultry houses, brooders and all out buildings. It is economical, unbreakable, flexible and is easy to cut and install. It is now being successfully used for sunrooms, verandas, schools, factories, hospitals, sanitariums, hot beds, plant coverings and greenhouses. It keeps out cold and rain, and is an ordinary pair of scissors and is easy to fit. WINDOLITE is supplied in rolls any length but in one width of 36 inches only. A square yard of WINDOLITE weighs about 14 lbs. while a square yard of glass of ordinary thickness, weighs about 135 to 150 lbs. The improved WINDOLITE requires no varnish. WINDOLITE is made in England.

Price \$1.50 Per Square Yard, L.B., Toronto.

Local and General Items

T. M. Burnett, of Cadomin, was a visitor during the week with G. E. Cruickshank at Hillcrest.

Inspector J. O. Scott, of the A.P.P., was up from Lethbridge on a visit of inspection to the local detachment.

Mr. and Mrs. Carl J. Barren, of Claresholm, were visitors here on Tuesday of this week.

Mrs. E. J. Pozzi with her son and daughter, who have been visiting in Italy, are due to arrive home next week.

The members of the Oddfellow and Rebekah lodges of Blairmore, together with their families and friends held their annual picnic at Crow's Nest Lake yesterday afternoon.

J. Hillary, Jr., of Bellevue, Alberta, returned to town last week. He purchased a new Durant car and has taken his family for a motor trip to the mountains—Drumheller Mall.

E. D. Batrum was in Blairmore the early part of the week, effecting the town's audit for the quarter ended June 30th. Mr. Batrum proceeded west by auto, returning to Calgary over the Banff-Windermere route.

HOUSE FOR SALE, with large garden. Apply to Mrs. R. Dicken, State Street, Blairmore. [a3-3]

W. T. Eddy, as weed inspector, is a very busy man in the foothills district right now.

Rev. J. W. Smith and family returned last week from a month's vacation spent in Calgary.

LOST—During funeral on Sunday, August 4th, a Pythian Sisters' Past Chief's Jewel. Finder kindly return to The Enterprise office. Reward.

We read of persons being fatally burned, fatally scalded, etc., but never of anyone being fatally married.

A lady's wrist watch, picked up on the golf course, may be had at The Enterprise office upon payment for this notice.

Mr. and Mrs. Atherton, of Calgary were down to attend the funeral of the late Mrs. Agnes Lord on Sunday. They returned to Calgary by motor on Monday, accompanied by Mrs. Gale.

An Aberdeen committee sent out circulars asking prospective patrons to imagine they attended the bazaar and send along their contributions. The Aberdeen imagination can be developed to a point where they can imagine they sent along their contribution.

Three persons were killed and two seriously injured at a level crossing north of Red Deer, when an automobile was hit by a C.P.R. train in the early hours of Sunday morning. The dead are Mr. and Mrs. John Florence and their daughter-in-law, of Northbank, Alberta.

It is said that brunettes tan better than blondes, and all are now trying to acquire a coat of tan, for a tanned complexion has now become very fashionable. Yet we see some young girls hereabouts bedecked with paint and powder and their lips showing signs of the unsightly lip stick.—Ex.

The advent of the big nickel has reduced the church collections, according to an Ottawa churchman. The large five-cent pieces are dropped on the collection plate with a flourish that belongs to nothing less than a quarter. This churchman doesn't blame the shorter collection on the people, but on the government.

Elizabeth Moores, aged thirteen, of Coleman, has been advised that in the examinations by the Toronto Conservatory of Music she had been awarded the conservatory's introductory school violin silver medal for scoring the highest marks awarded this season to any candidate in their introductory examinations throughout the Dominion.

The marriage of John Meredith Sweeney, late vice-principal of the Blairmore schools, to Miss Dorothy Alexander, only daughter of Mr. and Mrs. D. A. Ward, of Wetaskiwin, took place at Wetaskiwin on July 25th. Mr. and Mrs. Sweeney are enjoying a honeymoon trip to Vancouver and Victoria, going via Prince Rupert. They will later return to Nanton, where Mr. Sweeney has been engaged as principal of the consolidated schools.

Dated at Blairmore, in the Province of Alberta, this 3rd day of July, 1929.

ARTHUR J. KELLY,
Secretary-Treasurer.

WAR PICTURE BOASTS

CAST OF WAR HEROES

"Mademoiselle From Armentieres," the Metro-Goldwyn picture coming to the Orpheum Friday and Saturday, which was filmed in England, boasts a cast of war heroes, including Sergeant Isay Smith, V.C., one of Kitchener's "contemptible little army," who was decorated with the Victoria Cross for heroism under fire at the retreat from Mons.

Col. English, D.S.O., who plays the part of general, commanded a Liverpool regiment during the war, and was often quartered in Armentieres. Col. English, who won both the D.S.O. and the Croix de Guerre for con-

spicuous gallantry under fire, says there were many women in Armentieres who would have merited the description merited the fictitious Mademoiselle who is the heroine of the film from which the picture takes its title.

One of France's most famous war heroes plays a spy. He is Gabriel Rosca, formerly sergeant of cuirassiers, ten times wounded, and decorated with the Croix de Guerre with three palms, and the Etoile de Blesure.

War realism such as has never been surpassed is featured and all the humor, pathos and romance of war have been blended in this film with an accuracy and authenticity of detail seldom equalled in film history.

Estelle Brody, a player new to American audiences, plays the title role with immense charm, while the large cast includes many players famous abroad, including John Stuart, Alf Goddard, Humbertson Wright, John Hamilton.

Obeying Orders

The young and keen police officer was being shown over his new night beat by the sergeant. "D'ye see that red light in the distance? Well, that's the limit of your beat. Now, get along with it."

When he did show up at headquarters, the sergeant demanded furiously where he had been.

"Ye remember that red light?" asked the bobby.

"Yes!"

"Well, that was a moving van bound for Newcastle." — Sporting and Dramatic.

NOT UNDERSTOOD

Not understood, we move along asunder.

Our paths grow wider as the seasons creep.

Along the years we marvel, and we wonder.

Why life is life? And then we fall asleep.

Not understood.

Not understood, we gather false impressions.

And hug them closer as the years go by.

Till virtues often seem to us transgressions.

And thus men rise and fall, and live and die.

Not understood.

Not understood, how trifles often change us.

The thoughtless sentence or the fancied slight.

Destroy long years of friendship and estrange us.

And on our souls there falls a freezing blight.

Not understood.

How many cheerless, lonely hearts are aching.

For lack of sympathy—Ah, day by day.

How many cheerless, lonely hearts are breaking.

How many noble spirits pass away.

Not understood.

O, God! That men could see a little clearer.

Or judge less harshly where they cannot see.

O, God! That men would draw a little nearer.

One another. They'd be nearer than And understood.

PUBLIC LIBRARY

Three hundred and twenty-five more volumes have been secured for the library. These will be made available for use by the public as soon as extra shelving and room can be arranged for.

Sandy: "Are ye fond o' moving pictures, lass?"

"Aye, Sandy."

Sandy: "Then, maybe ye'll help me to get a few doon out o' the attic."

Very Damp

An American on entering London for the first time engaged a taxi. On passing the Thames he called out to the driver: "Say, buddy, what do you call that drop of stuff over there?"

The driver looked round, then shouted to the Yank: "Well, bust me, if my tank ain't leaking again."

Fourteen cases of orifices were carried from England to Japan recently under the auspices of the Canadian Pacific Express Company to the order of the Emperor of Japan, the Empress and members of the Imperial Court. They are sent out from England about three times a year and are highly prized by the Japanese Royal Family and Court.

BLAIRMORE UNITED CHURCH

Rev. J. W. Smith, B.D., Pastor

Serve the church that the church may serve you.

Services Sunday, August 11th, the Pastor in charge:

10 a.m.—Junior School meets in the Church.

11 a.m.—Senior School and Congregation join in Public Worship.

DAILY VACATION SCHOOL

The daily vacation school is proving very successful. More children are attending this year, which speaks well for the interest the boys and girls themselves feel in it.

Any boy or girl between the ages of four and fourteen is welcome to attend, and may begin at any time.

On Friday, August 16th, the general public are invited to a closing demonstration and exhibit. The boys and girls will do part of the work they have been doing day by day. Handwork will be exhibited and altogether the evening will be very interesting to everyone. Collection in aid of the school fund.

Famous last words: "Will be there in a minute."

Reform Of Electoral Methods

Recent elections in Great Britain, in Canada, and more recently still in the Province of Saskatchewan, all seem to point in the same direction, and that is to a change in the system or methods of choosing Parliamentary representatives. For many generations the underlying principle of the British system of responsible government has been ruled by the majority of the people as indicated by their selection of party representatives in the House of Commons or Legislative Assembly, as the case may be. And much representatives were chosen, for the most part, by constituencies represented by a single member. So long as the electorate were divided into only major parties or groups of political thought this system worked fairly well, although it was never wholly representative of public opinion.

Now, however, that the two-party system has been, or is being, replaced by three and sometimes four or more parties, the weaknesses of the old system have become apparent, and the old principle of rule by majority is rapidly becoming impossible of realization. On the contrary, at Westminster, at Ottawa, at Regina, each party represented in Parliament is a minority party, and in each instance the smallest of these minority groups holds the balance of power. In each of the legislative bodies referred to, the group having the largest representation in the House constitutes the government party, but at any moment, and on any question that may arise, the government may suffer defeat and be called upon to give place to another minority group.

With the exception of the United States where the two-party system continues in favor, partly, perhaps, because it is so interwoven into the whole fabric of government, national, state, municipal, even county and judicial, it appears to be giving way throughout the world. In Germany, France, Belgium, and other countries, the single transferable ballot, or Proportional Representation adopted, or the second election system inaugurated. Even in the United States the primary system almost amounts to a second election. In a word, it is recognized that the single member constituency where a mere plurality of votes is sufficient to elect, regardless of the number of candidates in the field, no longer meets the needs of the situation.

And it is becoming increasingly evident that it will not for long prove acceptable to the people of Great Britain, or Canada, or in the Provinces of Canada. Opponents of Proportional Representation have always argued that it tends to a multiplication of parties or groups, but the fact now has to be faced that this multiplication has taken place under the existing system. The system itself, therefore, must be altered to meet the changed conditions.

Most politicians will not welcome any change, but they cannot prevent it. The important question is—What basis of representation and method of voting shall be adopted to best meet the needs of the new conditions that have arisen? Already the subject is engaging the attention of political students in Great Britain, and it is confidently predicted that the unwritten constitution of the Old Country will undergo some change. Occupying the commanding position he does in the present Parliament, and suffering the handicap of a much smaller representation in the House of Commons than the vote polled by his candidates in the country, justly entitled to Lloyd George will not long remain content with things as they are. He can, and probably will, demand as one price of his continued support of the Ramsay MacDonald Labor Government a reform of electoral methods and machinery which will accord full value to every individual vote cast, and not place third or fourth party candidates at a distinct disadvantage.

Whether the solution is to be found in larger multiple-member constituencies replacing the present single-member seats, with the adoption of the single transferable ballot, or even Proportional Representation, or in a complete change in the accepted form of cabinet responsibility, involving a fixed term for Parliaments and Legislatures, denial to a government of the right of dissolution except upon a straight vote of want of confidence, and the formation of a cabinet consisting of representatives of all groups, and based upon their respective numerical strength in the House, time alone will disclose.

One thing, however, may be accepted as sound, and that is that the genius of British statesmanship which in the past evolved the best form of democratic government the world has yet known will be capable of meeting the new situation and solving the problems which it presents.

Plane In Freak Accident

Strikes Steam Roller In Making Landing At Roosevelt Field

When an aeroplane and a steam roller collided at Roosevelt Field, N.Y., the accident ruined the plane and injured the operator of the roller.

James Riddle, piloting a small

If you cannot nurse your Baby—use EAGLE BRAND CONDENSED MILK

Pure Safe Easily Digested

monoplane in which two friends were riding as passengers, chose for his landing a part of the field which is being levelled off and on which two steam rollers were at work, hidden from the air by the cloud of dust they raised.

The descending plane took off the smoke stack of one of the rollers and bowled the operator, A. C. Madberr, from his seat, breaking his shoulder.

The plane crashed, tearing off the left wing, and otherwise damaging it beyond repair, but Riddle and his passengers escaped without injury.

Plant Grows Leaves After Having "Sleep"

Replaces Withered Foliage In Fifteen Or Twenty Minutes

After "sleep" of from 15 to 20 minutes, a plant, recently developed in Germany, produces new leaves. So sensitive is it that if the leaves are touched, or a match burned near them, they immediately wither and fall off. In about a quarter of an hour after the withered leaves have dropped off, new ones grow fast. The plant is a member of the mimosa family. It grows in great quantities in India, where it is gathered and sold for commercial purposes. The bruised leaves are said to have a high medicinal value in healing burns.

U.S. To Reduce Military Expenses

President Hoover Says Military Budget Now Greater Than Any Other Country

President Hoover intends to establish a commission of army officers within the general staff to see what can be done toward reducing military expenditures.

The commission, the president said, would be charged with making an enquiry to determine what has been made obsolete by scientific advancements and could be done away with, and what army programmes can be spread over longer period than originally intended and at the same time maintain complete and adequate preparedness.

The president said the purely military expenses of the United States constitute a military budget greater than that of any other nation and at a time when he considers there is less danger of war than at any period within the last fifty years.

It is now estimated, he said, that the military outlay for 1922 will be \$803,000,000, which is \$120,000,000 more than the similar expenditure for the fiscal year just closed, and compares with an average pre-war expenditure for military activities of the army and navy of \$266,000,000 annually.

NEW HEALTH FOR TIERED-OUT WOMEN

Found In The Rich, Red Blood Dr. Williams' Pink Pills Actually Make

Anemia comes on gradually, beginning with languor, indigestion to mental or bodily exertion, irritability and a feeling of fatigue. Later comes the paleness of the heart, the frequent headaches, the often disturbed digestion and is often difficult to obtain rest at night. Cases of this kind, if not treated, become more serious, but if taken in time there is no need to worry. Dr. Williams' Pink Pills, which are free from any harmful or habit-forming drug, are just the tonic needed to remedy this wretched state of health. These pills actually make the rich, red blood that stimulates and strengthens every organ and nerve in the body. Thus strength and activity return, the appetite improves and the vitality is restored. Dr. Williams' Pink Pills can and will do is shown by the case of Mrs. D. B. Fanning, Sea Harbor, N.S., who says: "I was in a badly run-down condition. I was pale, my appetite was very poor, and the least exertion would leave me completely tired out. In fact I was hardly able to do much work about the house. I decided to try Dr. Williams' Pink Pills, and after taking a few boxes can truthfully say I had gained greatly in health and strength and was able to go about my work with no sign of the former weakness. I cheerfully recommend them to all others who may be in a run-down condition." You can get the pills from your druggist, or by mail from the box from Dr. Williams' Medicine Co., Brockville, Ont.

Cyclists Honor War Dead

Nearly 10,000 cyclists, many of whom had ridden all night from the extremes of England and Wales, gathered on a recent Sunday morning before the National Cyclists Memorial, at Meridian, believed to be the exact centre of England. About 3,000 of the cyclists were girls, and most of them were cycling breeches. A brief service was held at the memorial, which was erected seven years ago to commemorate cyclists killed in the World War.

For Scalds Or Burns.—Dr. Thomas' Electric Oil is a standard remedy for the prompt treatment of scalds and burns. Its healing power quickly soothes the pain and aids a speedy recovery from the injury. It is an excellent remedy for all manner of cuts, bruises and sprains, as well as for relieving the pains arising from inflammation of various kinds. A bottle in the house and stable saves many a doctor's and veterinarian's fee.

Canada's Iron-Making Centres The three iron-making centres in Canada are: Sydney, Nova Scotia on the Atlantic Coast, and Hamilton and Sault Ste. Marie in the province of Ontario.

Minard's Liniment For Neuralgia.

Dr. Malcolm Sargent, the famous English orchestra conductor, has just refused \$35,000 as musical director of a London motion picture theatre which would require only three ten-minute appearances a day.

Alberta Premier Tours North

Party Will Go To Extreme Northern Part Of Province

Hon. J. E. Brownlee, premier of Alberta, and Dr. R. C. Wallace, president of the University of Alberta, have left Edmonton on the Northern Alberta Railway for the Peace River country on a four weeks' tour of the north in which they will use railway, power boat, auto and aeroplane.

Their itinerary will take them as far as Fort Fitzgerald on the northern edge of the province, then into the Northwest Territories to Great Slave Lake and as far east as Lake Athabasca on the northeastern corner of Alberta.

They were accompanied by John M. Innes, managing director of the Edmonton Journal, who joined the party on Premier Brownlee's invitation. This will be the first time in the history of the province of Alberta that the head of Alberta's government and the head of Alberta's University will travel to the extreme northern boundary of the province.

The itinerary also includes a four days' speaking tour of the Peace River country by the premier, a visit to the Wood Buffalo Park and inspection of mineral development in Great Slave Lake and around Lake Athabasca.

Inspector Hancock of the Alberta Provincial Police is in charge of all arrangements.

Many Claimants For Czar's Fortune

Three Cornered Legal Fight Millions Left By Assassinated Ruler

The personal fortune of the late Czar Nicholas II. of Russia, reported to be approximately \$100,000,000, has become the object of a three-cornered legal fight which is expected to be tied up in the courts for years.

The Soviet Government is the last party to lay claim to the fortune, much of which is supposed to be on deposit in the United States. Another claim has been entered by a woman, now in the United States, who says she is Princess Anastasia, the youngest daughter of the Czar and the only member of the family to escape assassination in the revolution. She is known as Mme. Tschalkowsky. Recognized relatives of the late Czar, who claim Mme. Tschalkowsky is an impostor, also are fighting for a share of the money.

Keeps a Mouse Farm

Have you ever heard of a mouse farm? There is one at Rayleigh, in Essex, where mice are reared just as cattle and sheep are on ordinary farms. There are 50,000 mice, and of nearly every color. Yet, although there are so many, Mr. Tuck, the farmer, can put his hands on any one of them at a moment's notice. About three hundred young ones are born every day, and it takes five hours to feed them all. They are sold to colleges and hospitals for experiments.

Garage For Women Autolists

A garage for the sole use of women autolists has just been adopted by women in London. A club devoted to feminine needs is a feature. Here, full motorists have sitting rooms and dressing and change rooms with bathrooms adjoining. Women auto enthusiasts recently dedicated the place with solemn ceremony.

Minard's Liniment for Burnings Cuts

Reduced Crop Likely

To Halt Immigration

Some Of Departmental Money May Be Used To Assist Farmers

The crop situation in Western Canada will have a salutary effect on immigration, it is believed in the capital. The foresightfulness of Hon. Robert Forke in limiting continental immigration and shutting it off on May 31, is considered as having prevented a more serious situation in the west and relieved to some extent the inevitable burden of unemployment which follows a poor crop year.

Mr. Forke has been in Western Canada with W. J. Egan, his deputy, and it would not cause surprise at Ottawa to find that still further restrictions will be placed on continental immigration, and that even British immigration may be pared down.

At present any Britisher can come to Canada at the low rate of \$50. The nominal rate is \$90, the balance being made up by the British and Canadian governments. With poor crops in the west and less employment, the Government will guard against an undue influx which may swell the unemployed. Farmers cannot carry hired hands through the winter when the crop has been poor and the cities will have enough unemployed with those already here. There is even a suggestion that some of the immigration expenditure may be diverted to assist the farmers, should conditions develop along the down road as at present. The land settlement board, formerly the soldier settlement board, may be called upon to keep track of the farmers in the various stricken districts and render such aid as may be possible.

Prince Receives Prize Winner

Successful Marksman at Blaisy Also Had Messages of Congratulation

The Prince of Wales received Lieut.-Col. R. M. Blair, commanding officer of the Seaforth Highlanders, Vancouver, B.C., at St. James Palace and congratulated him on his success in winning the King's Prize at the recent meet of the National Rifle Association at Blaisy. In addition to a host of messages from Canada, Lieut.-Col. Blair is especially gratified by the receipt of congratulations from every battalion of the Seaforth Highlanders in the British army, he said. An old lady, a perfect stranger to Lieut.-Col. Blair, has written to the King's Prize man, from Guernsey, one of the Channel Islands, expressing the hope that he is a teetotaler.

It Bids Pain Begone.—When neuralgia racks the nerves, the "Electric Oil" cures it. It is the time to test the virtues of Dr. Thomas' Electric Oil. Well rubbed in it will rub the pain and produce a sensation of ease and rest. A trial of it will establish faith in it.

A notion prevails that no automobile driving is reckless unless an accident happens.

Tanks of 4,000 elephants go into the world's annual supply of billiard balls.

A DOZEN different things may cause a headache, but there's just one thing you need ever do to get immediate relief. Aspirin is an absolute antidote for such pain. Keep it at the office. Have it ready in the home. Those subject to frequent or sudden headaches should carry Aspirin in the handy pocket tin. Until you have used it for headaches, colds, neuralgia, etc., you've no idea how much Aspirin can help. It means quick, complete relief to millions of men and women who use it every year. And it does not depress the heart.

ASPIRIN Aspirin is a Trademark Registered in Canada

Turner Valley Oil

Production and Revenue Shown To Be Increasing Rapidly

The Turner Valley oil field in Alberta becomes increasingly significant and its production and revenue are steadily increasing. A continuous rise in naphtha production has been recorded month by month since the beginning of the year. In January there was a total of 38,501 barrels turned out with a value of \$154,000, which rose by consistent increments to 92,122 barrels worth \$368,480 in June. The total for the six months of the year was 386,272 barrels of crude naphtha worth \$1,545,088. The expectation is for fully 100,000 barrels in July which would make a revenue for the month of some \$400,000.

Recognized as a leading expert for the destruction of worms, Moth-er Gruber's Worm Exterminator has proved a boon to suffering children everywhere. It seldom fails.

Tourist Traffic Heavy

Tourist traffic in the west will break all records this year, judging from present indications, in the view of H. F. Matthews, of Winnipeg, general manager of western hotels, Canadian Pacific Railway. The mountain resorts are booked almost solidly for the season, he said, especially the hotels at Banff and Lake Louise.

ZIG-ZAG Cigarette Papers Large Double Book. Find Out Can Buy NOW 5¢

Keep Foods Deliciously Fresh

Keep your foods—cakes, bread, pies, cut meats, etc.—under a covering of Para-Sani Heavy Wax Paper. You'll be amazed at the length of time they'll stay fresh, delicious! Para-Sani keeps them from staling. Get Para-Sani in the handy, sanitary knife-edged carton. For less exacting uses ask for Appleford's "Centre Puck". Pucks in sheet form.

SUGGESTS THAT BRITAIN SINK PART OF FLEET

Washington.—Great Britain was called upon in a statement issued by Chairman Borah, of the Senate Foreign Relations Committee, to sink some of her ships as a means of reaching a parity with the United States.

Borah said England has 59 modern cruisers while the United States has eighteen built or building.

"If Great Britain will follow our example at the Washington conference," he said, "and sink some of her ships and thus come to parity it will not only save the taxpayer but reduce the incentive to war—for huge armaments are always an incentive to war, parity or no parity."

"But if we have to build up to parity, it vastly increases the burden of the taxpayer and augments the incentive to war."

The Idaho senator was a luncheon guest recently of President Hoover, and it is presumed the impending naval limitations conference between Great Britain and the United States was discussed.

London.—The sacrifices entailed by the British Government's latest disarmament move are stressed by the Daily Telegraph, the newspaper pointing out the two cruisers, "Surrey" and "Northumberland"; the submarine depot ship "Medway" and two submarines belonged to the 1925 program and money had been voted months ago.

Advices from Glasgow are that at least 700 men have been thrown out of employment by suspension of work on the submarine being built there. The keel of the submarine had already been laid and the frame of the hull was being advanced.

Cotton Strike Still

Far From Settlement

Powerful Weaving Branch Refuses To Consider Wage Reduction

Manchester, Eng.—Lancashire's cotton mill stoppage continues with prospects dimmer than ever for an immediate settlement and return to work of its striking operatives.

The employers professed still to be ready to negotiate for a solution of the dispute and the operators and spinners were expected to negotiate with them, but the powerful weaving branch was determined to remain adamant in opposition to the proposed wage reductions.

Meanwhile a section of the British press commented on the serious loss to British industry growing out of the stoppage as a consequence of the opportunity it gave rivals to seize the national trade.

Germany, France and Japan were reported in these quarters as optimistic over the opportunities presented. The Mail declared northern France would reap a golden harvest, orders which ordinarily would go to Lancashire going to Lille, Roubaix and Tourcoing. The paper said the French textile mills were working at top speed.

The Empress printed an article by an unnamed authority, attacking the obsolete organization of the cotton industry, which the writer said, is still bound by the methods of 60 years ago, absurd under present conditions.

Predicts 300,000,000 Bushel Crop
Toronto.—Col. Ralph H. Webb, former mayor of Winnipeg, said here that in his estimation the total Western Canada wheat crop would amount to about 300,000,000 bushels. From his sources of information he believed Manitoba would have the best crop for some years and while there will be many less spots in Alberta and Saskatchewan, other portions of these provinces would show good yields.

Sentenced For Manslaughter
London, England.—Richard Joshua Reynolds, 23-year-old American, of the wealthy Reynolds tobacco manufacturing family, was sentenced in Old Bailey Court to five months imprisonment without hard labor on a manslaughter charge growing out of an accident last May in which a motor cyclist was killed.

Progress Is Satisfactory
London, Eng.—Recent satisfactory progress toward an Anglo-American agreement on naval limitation has raised the belief in well-informed circles here that participation of other naval powers in the conversation may not be delayed as long as previously was anticipated.

Development In Aviation

Vancouver and Halifax May Be Linked By Air Route By 1931

Winnipeg.—Unprecedented development of aviation in Canada and the possibility of the Dominion realizing a transcontinental air mail service, linking Vancouver and Halifax by 1931, were heralded here by Major Gen. J. H. MacBrien, of Ottawa, president of the Aviation League of Canada.

Completing 1,500 miles of a solo flight from Ottawa, the famed Canadian flying "ace" piloted his little Gypsy Moth to a perfect landing at Stevenson Aerodrome, Winnipeg. General MacBrien is en route to the Pacific coast.

"Progress in Canadian aviation has been satisfactory," said Gen. MacBrien, "and a rapid development is taking place. Commercial aviation is growing steadily in Canada. New mail routes are being opened all the time, new flying clubs are being formed, and generally the situation is very promising."

Referring to the establishment of a transcontinental airway, Gen. MacBrien stressed the importance of perfect organization and pointed out that links were already started in both the east and west.

Completion of the service will witness feeders being supplied from northern provincial districts such as Hudson Bay, Peace River, Northern Ontario and Quebec," he said, "and eventually the Dominion will boast one of the most extensive and enterprising services in the world."

Increase Shown In Infantile Paralysis

Warning Sent Out From Ottawa To Guard Against Outbreak

Ottawa.—Telegrams went forward from Dr. J. A. Amyot, deputy minister of health in the Dominion Government, to all the deputy ministers of health in the provinces advising them that returns showed an increase in infantile paralysis and warning them as to the best methods to be adopted should the situation become acute.

A "blue book" is also being rushed through the Government printing bureau and will be widely distributed explaining the disease and how to combat it in the light of recent developments. The book has been written by Dr. Helen MacMurchy, chief of the division of child welfare. It will be issued under the patronage of Hon. Dr. King, Minister of Pensions and National Health.

Some three years ago infantile paralysis was prevalent in California and other Pacific Coast states. British Columbia was not seriously affected. In 1927 it spread to Alberta where there were 354 cases. Last year it reached Manitoba where there were at least 435 cases. The increase noted is in Ontario. The department does not wish to frighten the public, but it does wish to advise them of a danger which may develop quickly because of the contagious nature of the disease.

To Form Canadian Geographical Society

Will Aim To Make This Country Better Known To Canadians

Ottawa.—A national board of directors has been elected as a first step in establishing the Canadian Geographical Society aimed at making his country better known to Canadians and to those outside the Dominion. The society intends to issue a magazine.

The directors are: Dr. W. B. Brock, University of British Columbia; Dr. R. C. Wallace, president University of Alberta; Dr. W. C. Murray, president University of Saskatchewan; J. W. Duffie, managing editor Manitoba Free Press, and Dr. Charles Camsell, Deputy Minister of Mines.

Adults Bank Robbery

Smithers, B.C.—James Wesley Burke, captured recently after a two weeks' man hunt, has confessed to robbing the Royal Bank here of more than two thousand dollars on July 17. He was committed for trial on a charge of robbery with violence. Practically all the money taken has been recovered.

To Attend Labor Session

Ottawa.—Right Hon. J. H. Thompson, Lord Privy Seal, in charge of the unemployment situation under the Labor Government in Great Britain, has accepted the official invitation of the executive of the Trades and Labor Congress of Canada to be present at its convention which will be held at Saint John, N.B., during the week of August 26.

Replies To Critics

President Hoover Feels Justified In Postponing Work On Cruisers

Washington.—The agreement between the United States and Great Britain looking to complete equality in the strength of their navies is held out by President Hoover as an answer to critics of his decision to postpone work on the three cruisers laid down in navy yards next fall.

Quoting our naval authorities as regarding parity with Great Britain as "a complete defence of the United States contingency," the president has taken occasion to set forth the importance he attaches to the London agreement in a letter replying to criticisms of cruiser postponement action, by Paul V. McNutt, national commander of the American Legion.

WESTERN PORT IS LEADING IN GRAIN SHIPMENTS

Ottawa.—Vancouver leads the country in grain export with a volume of 54,233,652 bushels passing through the port up to the end of the first six months of the calendar year, commencing June 1, according to figures compiled by the harbor commissioners for the port. Montreal exported 43,549,140; Saint John, 22,622,984, and Quebec, 3,567,273 bushels of grain. No exports of this commodity passed through St. John in May or June, the opening of navigation resulting in a transference of that business to Montreal, whose figures for the year begin with the month of May.

The volume for Halifax is not available, but is known to be considerably greater than last year. Grain from the United States furnished more than fifty per cent. of St. John's exports, American exporters shipping 12,281,939 bushels against 10,341,054 bushels Canadian grain. This quantity of the American commodity was greater in the first four months of the current year than in the whole of 1928.

Last calendar year Montreal shipped 211,295,370 bushels, of which 148,599,958 was Canadian grain and 62,695,421 American. Vancouver shipped 97,250,448 bushels, all Canadian grain. Vancouver's exports increased by 55,233,521 bushels over 1927 and Montreal's by 18,047,465 bushels.

To Locate Beacon Station

Depot To Be Established For Airplane Pilots Near Brandon

Brandon.—Federal authorities have decided to locate a beacon station for the guidance of airplane pilots one and one-half miles east of Forrest, A. D. McLean, of Ottawa, and C. Taylor, of Regina, members of the federal aviation board, concluded the preliminary arrangements here this week. Two men are to be stationed at the depot, one for day and the other for night duty. It is understood that the closest beacon station to the west will be Broadview.

CELEBRATE DOMINION DAY IN JAPAN

The photograph here shows a scene at the new Canadian Legation in Tokyo, Japan, on last Dominion Day, when celebrations, its first public function, were conducted in the grounds and the Canadian flag was officially raised for the first time in the Orient.

HEADS ONTARIO MASONS

C. R. McKeown, of Toronto, chairman of the Ontario Masonic Board, who has been elected grand junior warden of the Masonic Grand Lodge of Canada in the province of Ontario.

Edmonton Judge Holds Court At Aklavik

Travels 2,600 Miles To Teach Eskimo He Broke The Law

Aklavik, N.W.T.—A verdict of guilty of manslaughter was returned in the case of Okchika, Eskimo, by a jury at Aklavik, recently, before His Honor Judge Duhon, of Edmonton. The trial was held at Aklavik, in the Northwest Territories, with Judge and jury.

Okchika, the Bathurst Inlet Eskimo, was found guilty of murdering Okkuk, another Eskimo, in the fall of 1927.

The jury considered for two hours and brought in a verdict of manslaughter, through their foreman, Dr. A. Trussell. Okchika was sentenced to one year's imprisonment at Hergehal Island.

This is the end of this year's judicial party's journey to the north to bring to the Eskimos two thousand miles from Edmonton that British fair play and justice for which the British empire has fought throughout centuries.

Making Secret Trip In Moth Airplane

Believe Machine Going North For Mineral Exploration Purposes

The Pas, Man.—A secret trip into the Northwest in a moth plane is underway with Capt. W. N. Sherlock, of Dominion Explorers' aerial staff, at the controls. The flyer hopped off from here for Lac La Ronge, in northern Saskatchewan. While the aviator refused to discuss his trip, it is stated in mining circles that the machine will be taken into the far North for mineral exploration purposes.

If successful, the venture will likely set a new Canadian record for light planes of the moth airplane type. Most of the country over which the machine is flying is remote from habitation and a forced landing enroute would place the pilot in grave danger.

Canada's Consumption Of Gasoline Mounting

New Record Made Last Year With 475,000,000 Gallons

Montreal.—Canada consumed about 475,000,000 gallons of gasoline last year, according to an estimate made by The Financial Post. This is a record figure, and exceeds any previous year's consumption by from 20 to 25 per cent.

Five years from now Canadian consumption of gas will probably top the billion gallon mark, so rapidly is the consumption of this all-important product increasing. This year's consumption will probably be in the neighborhood of 570,000,000 gallons, for not only are automobile registrations increasing currently at the rate of 15 per cent. per year, but the use of tractors and gas-burning machinery on the farms, the increasing tourist traffic; a higher mileage per car and the introduction of aeroplanes, all have their part in swelling our annual gas bill. The increase is significant in view of the tremendous investment interest in the gasoline business.

POOL PAYMENT OF FORTY MILLION ON 1928 CROP

Winnipeg.—Nearly \$40,000,000 is being distributed as a second interim payment on wheat and coarse grains by the Canadian Wheat Pools. The basis of the wheat payment is 21½ cents per bushel No. 1 Northern. Fort William: 19 cents on No. 2; 17½ cents on No. 3; 22½ cents on No. 4; 16 cents on No. 5; 8 cents on No. 6, and 7½ cents on feed wheat. There is a wide range in the payments on other grades, varying from as high as 34 cents and 36 cents per bushel on one or two grades, down to 2 cents per bushel on the smallest parcels.

Interim payments on durum wheats are: No. 1 Amber Durum, 15½ cents; 16 cents on No. 2; 12 cents on No. 3; 13½ cents on No. 4; 14 cents on No. 5; 6½ cents on No. 6, and 14 cents per bushel on feed Amber Durum. Last year the Pools adopted a new policy of adjusting all spreads and making deductions for elevator and commercial reserves carrying charges, etc., from the second interim payment, and this course has been followed this year. As a result, the final payment, which will be made at the end of the crop year, will be a flat payment on all grades.

In making the above announcement, E. B. Ransay, general manager of the Canadian Wheat Pool, made the following statement regarding the interim payment on grade six and feed wheat. "The wheat members who delivered wheat of these grades will remember that when the reduction was made in the initial payment last fall, from one dollar to 85 cents per bushel a concession was made to members delivering and storing grades to meet a very difficult situation. A larger proportion of the price of their grain was paid than in former years; for while the drop in the initial payment on the top grades was 15 cents below the previous year's basis the drop on No. 6 and feed wheat was only five cents per bushel. Prices of the lower grades, therefore, did not depreciate from the previous year's prices in the initial payments, in the same proportion as did the higher grades, even in the face of the very heavy deliveries of these lower grades which the Pool received."

The first interim payment on the 1928 crop was made by the Wheat Pool on March 1, last, when a flat payment of 12 cents per bushel was made on grades one to feed, with the exception of grade No. 6, on which the payment was 10 cents per bushel.

An interim payment amounting to over two and a half million dollars is also being distributed by the Canadian Grain Pools of Manitoba and Saskatchewan. An interim payment of 15 cents per bushel on 2 C.W. oats brings the Pool payment to the present to 55 cents per bushel, and 11½ cents payment on 3 C.W. oats brings the payment on this grade to 48½ cents per bushel. The interim payment on barley is 7½ cents per bushel, bringing the total to date on 3 C.W. barley up to 67½ cents. The interim payment on flax is 34 cents per bushel, No. 1 N.W. bringing the total to date up to \$1.98 per bushel. Interim payments on rye are 9 cents per bushel for No. 1 and 2 C.W., 9½ cents for 3 C.W., and 10 cents for rejected. Earlier payments amounted to 82 cents per bushel for No. 1 and 7 C.W.

LITTLE TROUBLE FROM ANTI-WAR DEMONSTRATIONS

London, England.—The anti-war demonstration sponsored by Communist organizations throughout the world, passed off peacefully and left large and apprehensive forces of troops police in the capitals of Europe with little work on their hands.

The most serious disturbance reported was in Canton, China, where martial law was declared for the day after grenades had been thrown at a government factory.

Although such meetings as were held in European centres passed off quietly, for the most part under close police observation, there were scattered clashes with the authorities and several scores of persons were added to those already in prison.

Gathering under the slogan of "War Against War," Communists over the entire Soviet Union took part in the demonstrations, which also marked the 15th anniversary of Russia's entry into the world war. Hundreds of thousands of persons filled the streets of Moscow in long parades led by brass bands and numberless banners and floats.

Demonstrations on a large scale were held in Moscow, Leningrad, Kharkov and other cities at which resolutions were passed declaring the danger of a new war and pledging support to the government's efforts in the cause of peace. A resolution passed at the Moscow gathering protested against the attitude of the British Government in the Anglo-Soviet negotiations.

France, whose Communists had made the most extensive preparations, enjoyed a comparatively undisturbed day. About 900 Communists were arrested in the Paris area where about 20,000 troops were on guard at all public buildings and in the factory suburbs. Police raids continued late into the night.

Aeroplanes flew over the city, dropping leaflets for demonstrations but only in the suburbs, where 100 workers at the Citroen plant rioted and fired on a tram car, was there trouble. The riot was quickly halted.

Andre Tardieu, minister of the interior, and Jean Chappet, prefect of police, stated that the day was calm with only minor and isolated disturbances. Several attempts at sabotage at factories or trains in the provinces were halted by French guards, and Paris police seized tracts exhorting Communists to stage a great parade on the boulevards.

Clashes occurred in a number of German cities and 30 Communists were arrested in Berlin where two members of the police guard were slashed with knives.

Will Check Liquor Runners

Ottawa To Ascertain Whether Canadian Escape In Traffic

Ottawa.—A check-up is to be made of the liquor running activities along the Canadian border for the department of national revenue to ascertain just what number, if any, engaged in the traffic are Canadians. This will be done to enable the government to reach a conclusion whether there is a sufficient number to make it worth while introducing legislation in the next session of parliament to prevent citizens of this country from obtaining clearances for liquor going to the United States.

The recent statement of Hon. W. D. Eider, minister of national revenue, announced that if there was any considerable number, legislation to put them out of the business would be introduced.

Two Killed By Explosion

Metal and Tank Blown 200 Feet Into Air

Trail, B.C.—Two men were killed almost instantly and a third injured when an acetylene gas tank exploded in the acetylene burner shop of the Consolidated Redwood plant here. The explosion threw metal 200 feet into the air. The tank itself rose to that height and came crashing back through the roof of the gate house, doing damage there.

Tax Receipts Larger

Ottawa.—Income tax receipts for the first quarter of the present fiscal year (ending June 30) totalled \$56,035,317 over the corresponding quarter of 1928, according to the Minister of National Revenue. The gain is attributed to larger incomes received and to more strenuous efforts in the collection of the taxes.

MID-SUMMER CLEANUP SALE

STARTING

Saturday, August the 10th

and Ending Saturday, August the 17th

One Week Only of Extra Special Prices

Men's Overcoats

Two only Navy Chinchilla
